Make a difference with your life in the lives of others. Join Relief Network Ministries' water well drilling mission to provide clean drinking water for thousands of people in rural Nigeria. Extensive long-running drought causing a lack of clean water for drinking, cooking and bathing has resulted in widespread sickness, feelings of hopelessness and despair of finding relief, and even death.

Relief Network Ministries is devoted to meeting the needs in the poor communities of Nigeria through water well projects; skills transfer; rural development; health care & sanitation; care for children, especially those orphaned by AIDS and HIV; and other assistances. See our website and brochures to learn of the many ways you can be a part of this mission, and to learn about our Board of Directors.
