

WALK FOR WATER EVENT HANDOUT

Relief Network Ministries, Inc.

Walk for Water – Why We Walk

- To raise awareness for families who have no access to clean water in Africa, India, and Pakistan.
- To help dig new wells and repair broken ones. A well costs between \$1,750 and \$8,500, depending on depth and soil conditions.
- To bring transformation through clean water: improved health, restored dignity, and the opportunity to share the love of Jesus Christ, the Living Water.
- To give children time to go to school and play instead of walking miles daily for water.
- To give mothers more time for work and caring for their families instead of spending hours fetching water.
- To support orphans, widows, and the elderly in the communities where we dig wells.
- To provide job-skills training that helps families break the cycle of poverty.
- To bring medical and humanitarian relief through medicines, vitamins, surgeries, and medical missions.

The Harsh Reality of Unsafe Water

- Causes dysentery, diarrhea, typhoid fever, skin infections, and river blindness.
- Leads to 800–1,000 preventable child deaths every day.
- Forces women and children to walk miles daily, wasting thousands of hours that could be used for education or work.
- Keeps families trapped in extreme poverty due to constant sickness and lack of opportunity.

Your Impact Today

- Every step you take helps save lives.
- You help bring clean water, health, education, and hope to entire villages.
- You help us share the love of Christ in practical, life-changing ways.

Call to Action

- Donate today at www.reliefnetworks.org
- Sponsor a village well | Tell us at: info@relief-networks.org | Call: 281-535-3553
- Dedicate a well in honor or memory of a loved one
- Schedule a meeting with us to partner or sponsor a full project

Thank you for helping bring clean water and hope to communities in need.
